## Introduction

The following report contains an inheritance tax planning forecast. This analyses your assets and liabilities in order to illustrate how much of your estate is liable to inheritance tax, and how your estate will grow in the coming years.

Throughout this report several assumptions have been made including an expected rate of Consumer Price Index and the forecast begins in line with the start of the tax year. In reality these figures may fluctuate and have a significant impact on your finances in comparison to those shown. We recommend regularly reviewing the assumptions made in this report.
